Goldin to 'Chat' With Students World-wide on Space Day, Thurs.

NASA Administrator Dan Goldin will "chat" with students world-wide Thursday via the Internet, as part of this year's Space Day celebration. Cyber Space Day will broadcast from Washington, D.C., from 9 a.m.-5 p.m. CDT. The webcast will allow students to conduct live interviews with significant space exploration contributors. For more information, visit www.spaceday.com on the World Wide Web.

AIAA Awards Dinner, 6 p.m. Thurs. at Bevill Center

Marshall-Managed Sensor Helps to Provide Severe Storms Warning

The Lightning Imaging Sensor, developed at Marshall for the Global Hydrology and Climate Center, is helping pave the way for a future space-based lightning mapper. Such a tool could provide better advanced warning of severe storms. The Lightning Imaging Sensor, launched on a rocket in November 1997, is scheduled to collect data for three years.
